

Open Access

Current trends and future developments

Symposium of the Consortium of Swiss Academic Libraries (CSAL)

Monday, 19th May 2014

Universität Bern, Hochschulstrasse 4, Kuppelraum (5th floor), 3012 Bern

Almost eleven years have now passed since the constitution of the *Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities* has been signed. The development of Open Access moves on strongly and we can look back on a decade of experiences made worldwide. These enable us to find newer and improved ways to further spread Open Access.

Therefore, the aim of this year's event is to give an overview of the current state and of new Open Access projects in Switzerland. Furthermore, the discussions will focus on more detailed knowledge of different aspects that play an important role in the entire Open Access publishing process.

MORNING

09.30-10.15 **Welcome coffee and registration**
