

Becoming a Federation Partner of SWITCHaai

For joining the Swiss higher education Federation, please consult the [Federation Partner page](#)¹, with all necessary information on the policy and the agreement which your organization needs to sign before becoming a Federation Partner of SWITCHaai.

Unless your organization has a license agreement with the Consortium of Swiss Academic Libraries, your application form needs to be signed by a supporting organization (any existing SWITCHaai participant from the SWITCH Community). By signing the application form, this supporting organization confirms that it regards the addition of the new partner as beneficial. SWITCH will help you finding a supporting organization and its contact person.

For the time being, there is no entry fee. SWITCH will inform all partners early on, whenever that should change.

Currently, the [SWITCHaai Federation](#)² covers more than 98% of all Swiss higher education students and staff. All Swiss universities have a Shibboleth Identity Provider running. Almost all Universities of Applied Sciences and most Universities of Teacher Education have already joined the federation.

Further details on the SWITCHaai Federation are available on the [SWITCH website](#)³. Please use aai@switch.ch for getting in contact with the SWITCHaai team.
